BARRELL BOURBON®

BATCH 033

Barrell Bourbon Batch 033 is a marriage of high-rye barrels and high-corn barrels ranging in age from 5 to 9 years old. The high-rye barrels were chosen for their distinct stone fruit, black pepper, and nutmeg notes. The high-corn barrels were chosen for their rich butterscotch, coffee, and citrus notes. Two sets of barrels mingled together for two months, then the balance was adjusted for the most optimal combination. This bourbon displays all the complexity of a blend of different distillates given time to blossom. Barrel character adds some diverse leafy notes at the margins without an overabundance of extractive woody or spice notes.
