BATCH 003

Rye Batch 003 is a blend of rye whiskeys from Indiana, Poland, Tennessee and Canada, all with distinct personalities and varying ages. We started with Tennessee Rye barrels with caramel and dried fruit notes and added the Polish Rye for its nuttiness and mouthfeel. We then carefully layered in 13-year Canadian

Rye to bring out earthy notes of grass, spearmint and apple. The Indiana Rye was the finishing touch to highlight the candied fruit and spiciness you expect from a rye.
